# State Legislative Response Manual

Developed by the National Club Association

## Acknowledgments

State Legislative Response Manual was prepared by the National Club Association (NCA) staff with substantial assistance from NCA Vice President of Government Relations Joe Trauger. This publication was updated from the 1998 version to reflect the changes over the last two decades in how people communicate and to include resources not previously available. It is meant to serve as an educational and reference tool for club leaders to communicate with elected and appointed government officials.
